Hafele Dispensa Pantry 170 Usage

Drawer Box Construction

Select **"Hafele Dispensa 170"** as your drawer box construction.

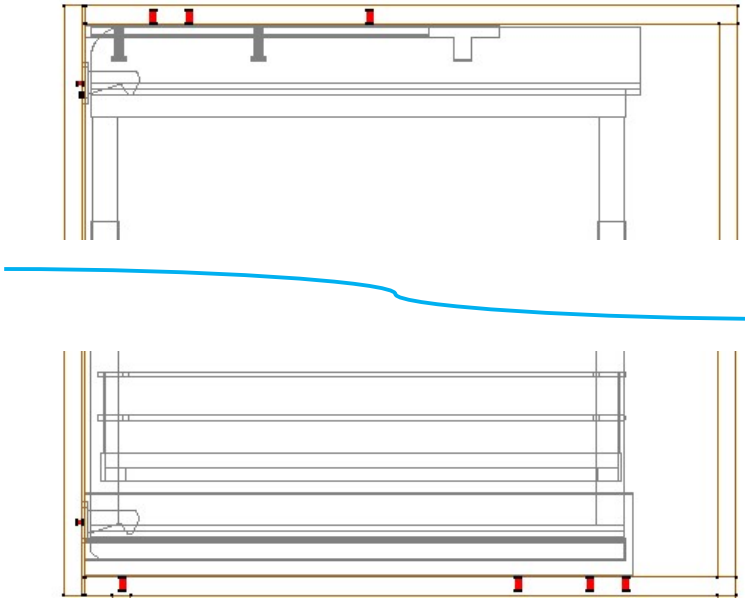

Drawer Guide Schedule

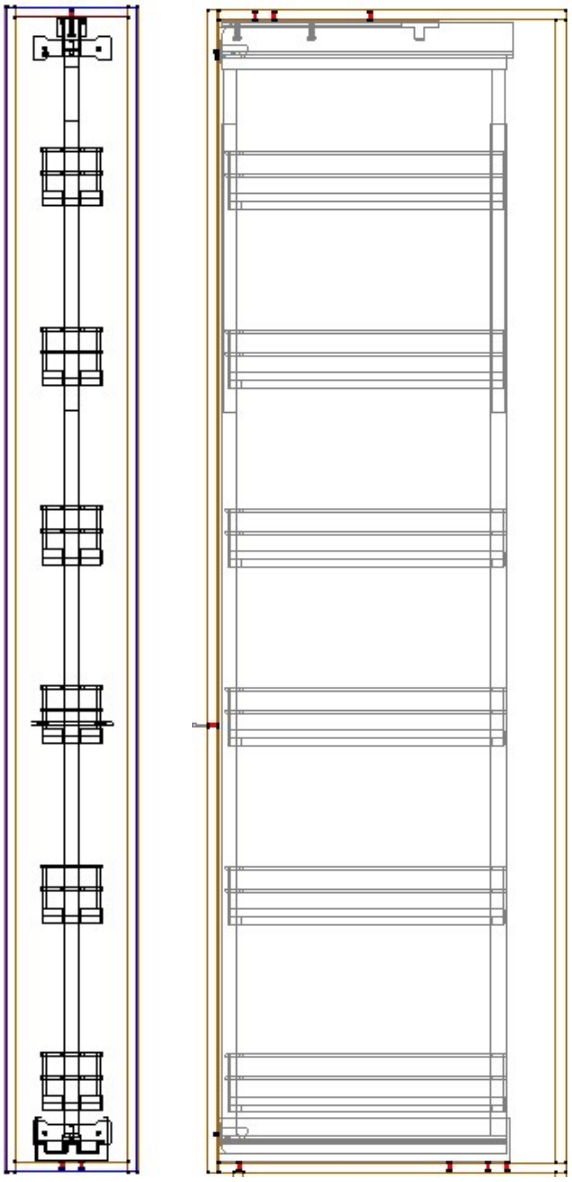

Select one of the **"Hafele Dispensa 170…"** schedules.

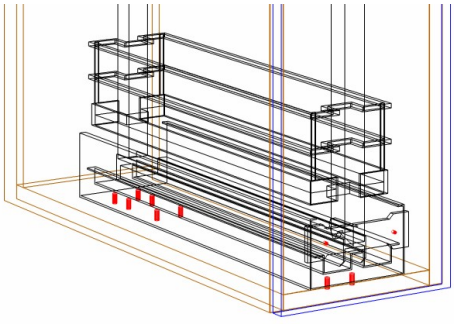

Minimum Sizes

Start with a 1 drawer Tall cabinet which has the following space:

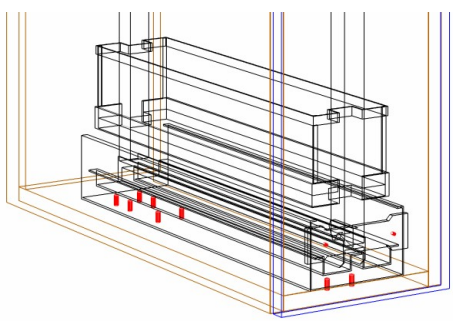

138mm minimum internal opening width
AND:
500mm minimum internal depth.
1200mm minimum internal height.
2300mm maximum internal height.

Dispensa 170 Arena Classic

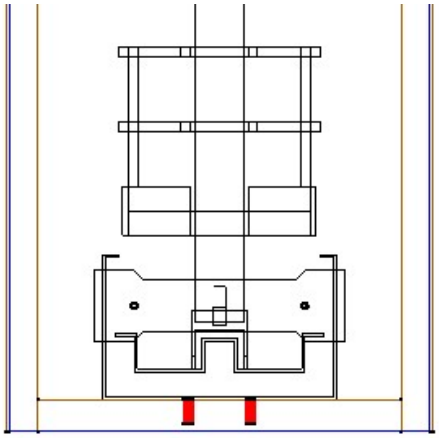

Dispensa 170 Arena Style

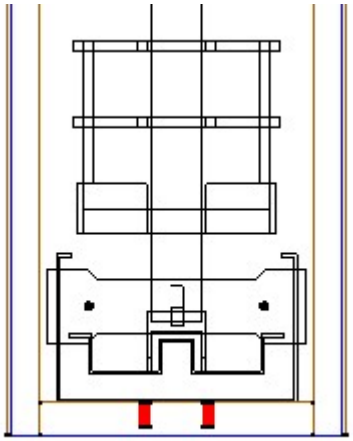

Cabinet Attributes

The Cabinet Width can be automatically sized to match the dispensa hardware using the following attributes.

Dispensa-Set Cab Width (DX)	True will change cabinet width to suit dispensa width.
Dispensa-Set Cab Width (Precision)	Exact/Rounded sets the precision if cabinet width is true.

Dispensa-Set Cab Width (DX) = False

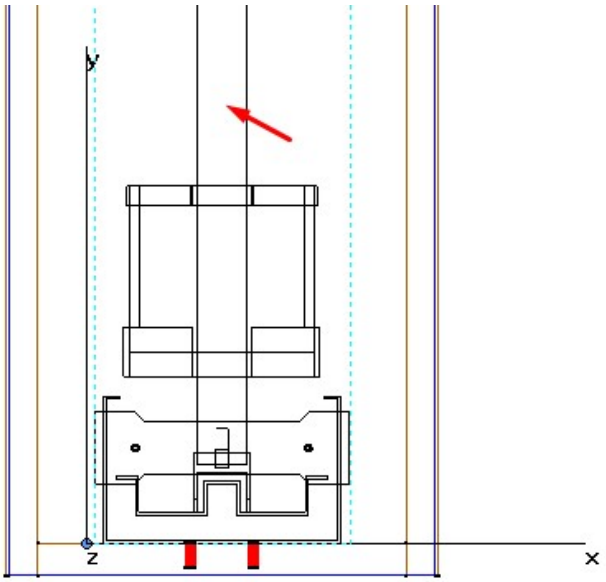

Dispensa-Set Cab Width (DX) = True

Part Attributes

The Dispensa hardware has attributes to control the Left/ Right position.

- Click on the dispensa hardware in an orthographic (smiley face) view of the cabinet editor.

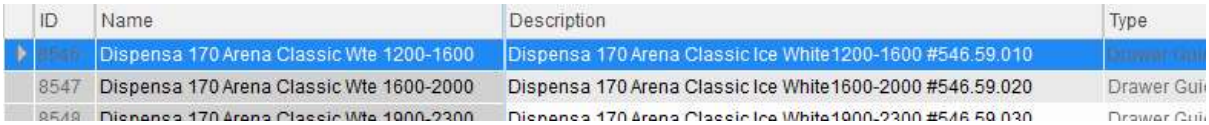

The following attributes are shown:

Position Left/Right (X)	Center/Left/Right – You can select the position of the Dispensa.
Position Left/Right ADJ	Change this value +/- to Adjust the Left/Right Position.
Recommended Opening (DX)	Displays the minimum 138mm opening for the Dispensa 170

Drilling Settings

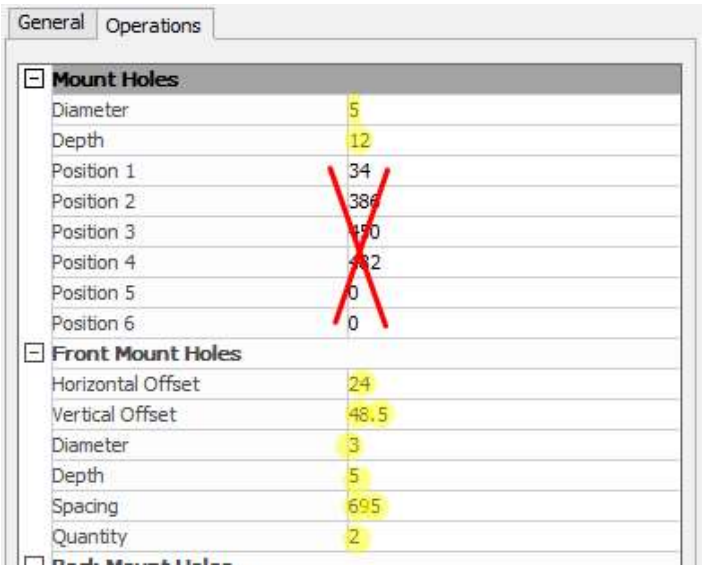

Drawer Guide Drilling

To Edit the drawer bottom or front drilling sizes use the Material Manager and search for Dispensa 170.

ID	Name	Description	Type
